

Navien makes it
easy to control
your water heater
or boiler from
anywhere
in the world

NavilinkTM
Wi-Fi remote
control system

KD NAVIEN[®]
Always a step ahead

NaviLink™

Wi-Fi remote control system

NaviLink is an add-on accessory that makes it easy to communicate with your Navien systems anywhere internet service is accessible. The NaviLink module attaches easily to any new or existing* Navien NPE series tankless water heater, NCB-E series combi-boiler, NFB series boiler or NHB series boiler. Once installed, simply download the free app on your smart phone or tablet. Then you will be able to relax...with NaviLink you will have the convenience and control of all your Navien systems right in the palm of your hand.

*Existing installations may require the purchase of a new main PCB and front control panel.

NPE Series
Condensing tankless water heaters

NCB-E Series
Condensing combi-boilers

NFB Series
Condensing heating boilers

NHB Series
Condensing heating boilers

Peace of mind
at your
fingertips

- Turn unit on and off
- Change DHW temperature
- Monitor system status
- Activate recirculation on NPE-A with HotButton™
- Schedule recirculation by hour or by day
- Add multiple users
- Allow installer access/account
- Multiple NaviLinks per account
- Push notifications

Navien innovations

are creating the most
energy efficient homes

Navien is the leader in condensing technology for water heaters and boilers. Our advanced systems recover extra heat from flue gases, that would be lost in non-condensing systems, to increase energy efficiency and reduce greenhouse gas emissions. This keeps exhaust emission temperatures very low, allowing for cost effective venting and space saving installations.

For more information contact your local Navien dealer or visit NavienInc.com.

Navien high efficiency

tankless

water heaters...

the ultimate

hot water

solution

- Industry leading energy efficiency
- Endless hot water supply
- Lower energy bills

KD Navien®

Always a step ahead

Navien makes it easy to go tankless

Endless hot water when you want it

Navien tankless water heaters deliver a continuous flow of hot water for as long as you need it. There's no waiting for a storage tank to warm up.

No "shower shock" effect

Navien NPE-A models have the built-in ComfortFlow® system which eliminates a sudden blast of cold water during your hot shower, also known as "shower shock" cold water sandwich. This issue is common on many competitor's tankless water heaters.

Compact design saves space

The Navien NPE Series sleek, wall-mounted tankless water heaters occupy 80% less space than traditional 50 gallon tank water heaters. These compact tankless units can also be installed in cabinets or small closets unlike bulky tank water heaters.

Enjoy limitless comfort

Bulky tank water heaters are history... Navien tankless is the future

Traditional tank

- Tanks run out of hot water during heavy demand
- A standard 50 gallon tank water heater may take up to 16 square feet of floor space
- Even when hot water is not required, the tank is being heated
- Tanks are approximately 30% less efficient than tankless
- 6-9 year warranty and an expected lifespan of 10-15 years

VS

Navien tankless

- Endless hot water when you want it
- No cold water sandwich effect
- Compact space saving design
- Lower energy bills
- Longer life than tanks
- 15 year warranty dual stainless steel heat exchangers

ComfortFlow

Built-in recirculation system, standard on all Navien NPE-A models.

ComfortFlow® recirculates hot water through supply lines, eliminating wait time for hot water

Lower energy bills, easier on the planet

Navien tankless	175 therms	\$165*
Other tankless	209 therms	\$200*
Standard tank	269 therms	\$272*

Unlike systems that waste energy to heat large tanks of water, Navien tankless units utilize .98¢ of every \$1 to heat your water. Unlike a conventional tank system, it only fires up when hot water is needed allowing great utility savings and a lower impact on the environment. What's more, Navien tankless heaters reduce CO₂ output by ~1,216.8 lbs.** per year compared to traditional tank type heaters.

Navien NPE-Series tankless water heaters are the most efficient according to the EPA Energy Star Directory.

*Based on Energy Guide cost estimates using \$1.09 per therm of natural gas. Cost is in US dollars.

Proven **practical** luxury

Longer life, best warranty

Navien was first to offer dual stainless steel heat exchangers, which resist corrosion better than copper. Navien's advanced technology and superior craftsmanship assure that your tankless water heater will provide years of trouble-free service with a longer life expectancy (up to 2 times) than a standard tank water heater. For added peace of mind, we offer the industry's strongest warranty.

Application		Labor	Parts	Heat exchanger
Residential	Standard or controlled recirculation	1 year	5 years	15 years
	Uncontrolled recirculation	1 year	3 years	5 years
Commercial or Combi*	Standard or controlled recirculation	1 year	5 years	8 years
	Uncontrolled recirculation	1 year	3 years	3 years

*Combi refers to a combination potable water and space heating application. Water heaters cannot be used in space heating only applications.
